# T 64
## Tamper

### For compaction of sand, gravel, rock fill and soil with high clay content.

All our machine models are versatile and easy to operate. They are also durable and reliable, which means lower operating and maintenance costs.

- The Swepac T 64 is suitable for repair jobs and work in areas with limited space such as trenches and building foundations.

- The machine is very well balanced and easy to operate. That means the T 64 is also suitable for minor adjustments in small spaces.

- T 64 is an efficient machine in clay and wet materials.

- It is equipped with the new Honda GXR120 engine, built for tampers. The engine offers lower fuel consumption and a more effective carburettor to handle today's environmental demands as well as making it easy to start and reliable.

| TECHNICAL DATA | SWEPAC T 64 |
|---|---|
| Weight, net | 64 kg |
| Width/length foot | 230 x 280 mm |
| Engine, model | Honda GXR120 |
| Volume fuel tank | 2.5 liter |
| Fuel | Petrol |
| Engine power | 3 kW |
| Impact force | 17 kN |
| Compaction depth | 65 cm |
| Vibrations frequency | 10-12 Hz |
| Hand/arm vibrations HAV according to ISO 5349 on gravel surface | 6.1 $m/s^2$ |
| Noise level Lw | 104.6 dB(A) |
| Noise level at operator, OP | 94.6 dB(A) |

| Part number | |
|---|---|
| 405102 | T 64 with Honda petrol engine |
