Features and Benefits

Emissions

The V1505 engine complies with EPA / CARB Tier 4 emissions regulations.

Durable Power

The Kubota 05 Series is an established leader, selected as the power source of choice by various industrial equipment manufacturers.

By reducing output, the V1505 engine realizes a smooth transition from E3 to E4.

Clean and Quiet Power

Kubota's original E-TVCS (Three Vortex Combustion System) has been improved. The airflow, combustion chamber, and piston recess have been optimized to provide low particulate matter (PM) levels, matching the stringent level of the emission regulation below 37 kW. The half-float valve cover and MoS₂-coated pistons reduce noise levels and decrease vibrations transmitted from the valve area.
